4th Grade
Mrs. Potter's Class

Multimedia Tree Painting
By Elizabeth Phillips

Projects Represented:

Multimedia Tree Paintings – Tempera paint trees on a watercolor background where students experimented with different brush strokes and painting tools

Cubist Portraits – Oil Pastel Portraits inspired by the Cubism of Picasso

Klee Inspired Village– Inspired by the colorful artwork of Paul Klee and the book "The Cat and the Bird", students created their own geometric villages with oil pastels.

Three Part Landscapes – Focusing foreground, middleground and background, students constructed a landscape from separate pieces of paper and colored pencils.

Symmetrical Bugs – Exploring symmetry in nature, these fantastical bugs were done in marker on tracing paper.

Oil Pastel Pumpkins – Blending of colors and depiction of form were the focus of these pumkin drawings.

Klimt Trees – Based on the Gustaf Klimt painting "Tree of Life", students created a collaged background, painted trees, and then added birds and other details with markers.
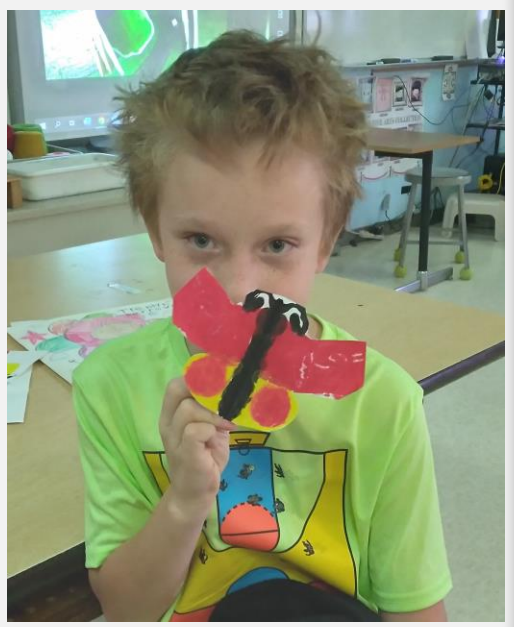

Flapping Blotterflies – Playing with symmetry and paint blots, students made "blotterflies" which were then mounted to clothspins to make the wings actually flap.
